

Sprocket & Idler

Product Name	Sprocket / Drive Sprocket / Driving Tumbler
	Idler / Idler Assy / Idler Tumbler / Front Idler
Material	35SiMn
Technique	Casting
Heat Treatment	Whole quenching and tempering, then surface hardening
Warranty	2000 - 2500 working hours
Application For Sprocket	Sprocket usually located at the rear of crawler crane travel device. The power of crawler crane engine is transmitted to the track through hydraulic travel motor and sprocket. It is required that sprocket be engaged with the track shoes to search accurately, the transmission is stable, and the track can still mesh well when the track is extended due to wear of the pin.
Application For Idler	It's used to guide the crawler correctly move and prevent deviation. Meanwhile, the idler also act as the lower roller, can increase the land area of the track shoes assy to the ground, reduce the ground pressure ratio.

Production Process

Shandong Value Machinery Manufacture Co., Ltd has focused on high-quality crawler crane undercarriage parts for more than 20 years in China.

We commit ourselves to the R&D and Production with some famous manufacturers. Our main products are crawler crane undercarriage parts including track shoes / track pads, pins, bolts & nuts, sprockets, bottom rollers / track rollers / lower rollers, top rollers / carrier rollers / upper rollers, idlers and so on.

We aim to supply best quality undercarriage parts for our clients, mainly for Hitachi, Sumitomo, Kobelco, IHI, Nippon Sharyo, Hitachi Sumitomo, Sany, Fuwa, XCMG, Zoomlion, Manitowoc, Demag, Terex, American, Link-Belt and so forth brands crane.

Warehouse

In order to provide good and fast service to every customer, we bulid a warehouse covered an area of 3,000 square meter to stock common-used crawler crane undercarriage parts. That could save customers time.

Advantages

Technology Team: Specialized research and development department. Professional engineers engaged in this industry for more than 20 years have rich knowledge and practical experience.

Delivery Team: Arrange the most reasonable shipping schedule and make customs clearance documents timely for you!

Quality Controller: Chemical composition test, Hardening and Tempering testing and Depth of hardening testing to make sure provide the qualified high-quality parts.
